Dear Charlie,

Thanks for the Press Kit on the Shuttle and Amateur Radio. We put the kit to good use especially the sheet indicating when Owen would be passing over.

We also talked on our show "Breakfast with Dick & Ellen" about Amateur Radio and how it was possible to make contact with the Space Shuttle. I was able to record at home on my own rig several transmissions from W5LPL which we played back on the air. The transmissions from his 4:18pm pass Tuesday, December 6th were of excellent quality to put on the air.

Thanks again for your help in bringing this fascinating event to our listeners' attention.

Sincerely,

Dick Stout KA9PGS of "Breakfast with Dick & Ellen"
